SWORKZ S35-GT3.0e FTE INSTRUCTION MANUAL

S35-GT3.0e FTE *Factory Team Edition* **1/8 Scale 4WD Brushless Power On-Road GT Car**

INTRODUCTION

The S35-GT3.0e Factory Team Edition (FTE) is an upgrade from the S35-GT2.2e FTE which won the 2023 IFMAR E-GT world cup. It was a special project created for the SWORKz GT drivers to compete in the GT Championships. The target is to always be faster, lighter and an easier driving feel.

The new car is designed with high quality aluminum bulk heads that can change diff positions. A Direct response steering servo savor with a new Ackerman system.

The latest S35-GT3.0e Lay Down Shock Tower System can apply to many lay-down shock positions. This is especially designed for high speed on road racing. Special options are the S35-GT2.2e FTE front upper and lower ultra hard material arms. Also included are the latest S35-4 rear lower ABS arms (ultra hard material) that improves the GT3.0e FTE's cornering speeds.

A brand new center solid axil design fitted with the plastic spur gears matched with high density motor pinion gears has also been completely revised on the S35-GT3.0e platform. This will significantly improve the driving experience compared to its predecessor.

The HET differentials developed by SWORKz are included with 13T pinions and 45T crowns.

The wishbone brackets with square inserts, allow the axle geometry of your SWORKz S35-GT3.0e FTE to be adapted to any track layout. The front and rear CVD wishbones are made of a newly developed composite materials. The side pans have also been redesigned.

The SWORKz S35-GT3.0e FTE has completely new rear knuckles made from composite materials combined with carbon plates that offers you the possibility for different setups.

From the world champion S35-GT2.2e FTE lightened chassis design, the chassis is now standard on the S35-GT3.0 FTE. A standard layout for 2pcs of 2S batteries in saddle position which provides a lower center of gravity. It also comes standard with a Pro-composite Carbon electric ESC 40mm fan holder and 2 40mm holders for motor.

There are many other changes and new ideas that were incorporated into the SWORKz S35-GT3.0e FTE that makes this car a real winner.

When designing the vehicle, the SWORKz development team focused on using materials that meet the highest quality standards. The S35-GT3.0e FTE kit is 100% SWORKz quality.

Congratulations on purchasing the new SWORKz S35-GT3.0e FTE Pro kit and thank you for your trust in SWORKz.

Please read these assembly instructions carefully before you start building and operating your SWORKz S35-GT3.0e FTE. These assembly instructions contain step-by-step instructions with which you can finish, prepare and optimize your car for racing. Updates, setups and new products are published on digital SWORKz media.

As always, if you have any questions about your SWORKz products or you need help, please contact our official SWORKz dealers and distributors.

Safety Precautions

The SWORKz S35-GT3.0e FTE is a high performance radio controlled model which needs to be operated with caution and common sense.

The S35-GT3.0e FTE Kit is not intended for children under the age of 14 without adult supervision. SWORKz shall not be held liable for any loss or damages, whether direct, indirect, act of nature, arising from the abuse or misuse of this product or any other product required while operating this model.

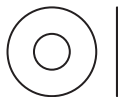

- The LiPO Battery can be dangerous if improperly handled.
- Always keep your LiPO Battery in a cool area and never use near flame, sparks, or while smoking.
- Keep your LiPO Battery, and all other flammables, out of the reach of children.
- After running your car, all parts of the Motor and ESC can become extremely hot. Be careful not to touch these parts.
- This model is controlled by your radio and that is vulnerable to interference from many outside sources. This interference can cause a loss of control so it is necessary to operate this model in an open area to avoid personal, or property damage. Always ensure turning on your radio first.
- Keep all the products included in the package out of reach of children.
- This model contains many fast rotating parts. Never touch them during operation.
- Follow the instruction included with your radio gear.
- Never operate your model near people or property. The speed of this model has the potential for injury and or damage to people and or property.
- Always use original SWORKz spare and option parts.
- Always ensure the buggy is in proper working condition before use.
- Always exercise caution when using any and all tools.

PRO TIP:

The S35-GT3.0e FTE Front Upper Arm Adjust Inserts can give different steering adjustments (Ackerman). Put all inserts behind the front upper arms, you will get faster steering response. Otherwise put all inserts in front of the upper arms, you will get more stable steering response. Try to use 2503260-1 or 2503260-3 to adjust the front upper arm position.
